Subject: RE: Updated: FDEP 404 Assumption - MOAs for transmittal to FDEP

Thanks. I have a call into Lee now. In the mean time, can someone check the attachments from the email you sent – it looks like it is two versions of the EPA/FL MOA redline instead of one redline and one final.

Subject: Updated: FDEP 404 Assumption - MOAs for transmittal to FDEP

Trey,

Updated from yesterday - please find EPA proposed edits for the two MOAs required for Florida assumption (EPA-FDEP MOA & Corps-FDEP MOA). I am including both a final copy and redlined version for ease of review.

These versions include a small change suggested by OW staff late yesterday. OGC has given the green light (David Fotouhi via staff) to share these with the Corps and FDEP. We understand that OGC believes this includes the green light from OW (David Ross); however, I wanted to make sure you knew we have not heard directly from OW at the AA level only from his staff.

Responses to FDEP on 3rd party proposals on the rule are still under discussion with OGC.

I have included below language for an email that you could choose to use to send these documents to Noah. Please let me know if you would like changes or want to approach this differently.

Thanks
Jeaneanne

Noah,

I want to thank you and your staff for FDEP's work with EPA on assumption of the Clean Water Act 404 Program. Recently your staff provided revised language for the two required Memorandums of Agreement (one between FDEP and EPA and one between FDEP and the USACE). Attached, please

find both documents with our suggested modifications/changes. We have included a clean copy of each document and for ease of review a redlined document showing our suggested changes.

If you have any questions please let me know. Again thanks for all of the work you and your staff are undertaking in this effort.

Trey
